## Professional Summary

Highly skilled WordPress and PHP developer with extensive experience in creating dynamic, user-centric websites and applications. Adept at both front-end and back-end development, with a focus on delivering fast, responsive, and scalable solutions. Proven track record of collaborating with cross-functional teams to drive project success and improve user experience.

## Core Skills

WordPress Development, PHP, HTML5 & CSS3, JavaScript & jQuery, React & Next.js, Responsive Web Design, Vue.js & Nuxt.js, HubSpot CMS, HTML Emails

## Professional Experience

### AlphaSense

Senior Web Developer | August 2022 – Present

- Spearheaded the rebranding and redevelopment of complex web applications, resulting in significant performance improvements.
- Established coding standards and best practices across the company to ensure code quality and maintainability.
- Collaborated with design and product teams to create optimized user interfaces that enhance overall user experience.
- Introduced innovative solutions that reduced loading times and improved site responsiveness.

## PriceWeber

Senior Web Developer | April 2022 – August 2022

- Implemented best practices in mobile-first and responsive design, improving website performance across devices.
- Integrated data between back-end systems and front-end interfaces efficiently using MySQL.
- Enhanced client satisfaction by delivering timely, innovative solutions tailored to specific project needs.
- Performed routine audits to identify and resolve performance bottlenecks.

## Sagefrog Marketing Group

Senior Web Developer | June 2019 – May 2022

- Led development of advanced client websites utilizing WordPress, PHP, and JavaScript.
- Mentored junior developers, promoting a culture of continuous learning and development.
- Optimized web performance, leading to improved SEO results and higher conversion rates for clients.
- Integrated robust security features to safeguard client websites against vulnerabilities.

## Freelance

Web Developer | January 2012 – January 2022

- Redesigned and optimized numerous WordPress sites to enhance user experience and search rankings.
- Developed scalable web applications to accommodate growing site traffic and improve functionality.
- Conducted comprehensive code reviews to ensure security, performance, and cross-browser compatibility.
- Provided long-term support and maintenance for various client websites.

## Key Projects

- AlphaSense: Led a complete website rebrand, significantly improving performance and reducing reliance on plugins. [<https://www.alpha-sense.com>]
- TradeCentric: Overhauled the client's website with a modern user interface, resulting in enhanced user engagement. [<https://www.tradecentric.com>]

- John Vena Inc.: Built a custom Headless WordPress solution using Vue.js, leading to increased user interaction. [<https://www.johnvenaproduce.com>]
